

I am an active listener of K-LOVE radio. I originally listened to 89.7 and then for the past few months have been listening to 90.3. I have a lot of friends and family members who are also active listeners and from the bumper stickers I see in the area I would say there are others who also listen to the K-LOVE stations. There are no other stations that I have listened to that provide the uninterrupted Christian music like K-LOVE. My hope is that there is a way to continue the service provided by the FM translators and that stations like K-LOVE will not be pushed out by the Low Power FM stations. Thank you
